

ACE: Dreamweaver CC 2015 Exam Guide

Certified Expert
DREAMWEAVER® CC

Adobe Digital Learning Services provides this exam guide to help prepare partners, customers, and consultants who are actively seeking accreditation as Adobe Certified Experts (ACE). This guide, while designed to describe the exam in detail and provide as much information as possible, is not meant to be the sole means of exam preparation. Adobe Digital Learning Services offers courses that provide in-depth training on the exam content.

Hands-on experience with the Adobe product suite is also a critical element in preparing to pass any Adobe certification exam.

ACE: Dreamweaver CC 2015 exam overview

Typical candidates have 2+ years' experience working with Dreamweaver on web projects and collaborating as a web designer/developer. They have responsibility for architecting a site, designing page layouts, coding pages, and styling page elements with CSS. This candidate is familiar working with JavaScript behaviors. They have the ability to publish sites via FTP transfers and are knowledgeable of web standards. They can create and deploy pages that display in modern browsers across all screens and devices.

Exam description

The exam has two parts:

- 55 multiple-choice questions, covering a range of topics listed below
- A short survey that we use to gather information about your product experience

The exam has a time limit of 75 minutes, and includes a timer to mark the remaining time.

Exam scoring

All Adobe exams are reported on a scale of 300 to 700. The passing score for each exam is 550. For more information about scaled scoring, visit the [FAQs](#).

Scheduling exams

Our exams are delivered worldwide by PSI.

To register for the exam:

1. Visit Adobe's [credential management system](#) logon page. The logon requires that you have an Adobe ID. If you do not have an Adobe ID, click the link for "Get an Adobe ID"
2. After logging on, if you have never taken an Adobe exam before, you will be instructed to create a Profile. After creating your Profile, you will be instructed to update your opt-in Settings..
3. Once logged on, click "Home" then click "Schedule your exam at PSI."
4. You will be directed to a new page within CertMetrics where you will click "Click here to log in to PSI."

5. You will be taken to a page hosted by our exam delivery vendor, PSI, that displays the available exams
6. Scroll through the list of available exams and press the "Schedule Exam" button for the exam you want to take.
7. Select a delivery mode for your exam by choosing either "Test Center" or "Remote Online Proctored Exam."
8. Select your exam language to see options for your exam.
9. Select an available date and start time.
10. Confirm schedule details to receive a booking confirmation.
11. Proceed to payment.
12. After payment is successful, you will receive an email confirmation your registration details and a receipt.

Exam preparation

The following are typical tasks that you should already be able to perform:

- Define sites for FTP connections (and set the local root folder)
- Create, edit, and delete pages
- Use the Files panel to build a site map and manage pages/assets
- Add content such as text, images, and rich media to pages
- Insert HTML5 audio and video content
- Format text and images with CSS (and use CSS Designer)
- Manage and use Edge Web Fonts to format text content
- Position page elements with CSS and use the CSS Styles panel
- Author HTML code
- Add Dreamweaver JavaScript behaviors to a page
- Create responsive layouts and understand media queries
- Preview pages in Live view and in web browsers
- Deploy and manage sites
- Use Check in/Check out to collaborate on group projects

Exam topics may include:

Navigate the workspace

- Work with the Document window
- Manage files in the Files panel
- Update properties in the Property inspector
- Configure workspace layout and docked panel sets

Define a site

- Create the local root folder
- Set server information with hosting account details

Create web pages

- Use the New Document dialog box
- Organize the site structure
- Set Page Properties
- Preview pages in a browser

Lay out pages

- Use the Structure section of the Insert panel
- Create responsive layouts

Format and Modify Text

- Apply Edge Web Fonts to text content
- Use Find and Replace

Work with Cascading Style Sheets (CSS)

- Work with styles in the Property inspector and Live View Interface
- Use CSS Designer to visually define CSS properties
- Create transitions with the CSS Transitions panel

Add and manage links

- Understand basic link types

Add images and rich media

- Insert images
- Insert HTML5 video

- Insert HTML5 audio

Write HTML code

- Use the Code view of the Document window
- Make changes to code using Design view of the Document window
- Select specific code
- Understand related files
- Work with behaviors

Work with templates and library items

- Insert editable regions
- Edit and updating templates
- Create and editing Library items

Work with mobile devices

- Use jQuery Mobile

Launch a site

- Transfer files to the remote server / local machine using Get and Put
- Understand and use Check In/Check Out
- Upload a site using the Files panel

Exam preparation checklist

- I have at least three years' experience as a web developer.
- I am familiar with Adobe Photoshop.
- I have experience with architecting a site, designing page layouts, coding pages, and formatting page elements with CSS.
- I am familiar with web standards and able to render pages in modern web browsers.
- I can complete the tasks outlined in the "Exam preparation" section without assistance.
- I have read and studied the topics listed in this exam guide.
